

IRISTEK TPH MATTE

Iristek TPH Matte is a cost-efficient PVC surface protection film with self-healing, matte surface that will protect your car from environmental impacts for many years to come. It also has a **water-repellent** property so its surface is easy to clean.

Especially recommended product if you are looking for an excellent value-for-money PPF for matting original paintwork. In addition to the new look, it also provides basic protection to the car and keeps it protected from minor damages.
